EXECUTIVE SUMMARY

Heaven Token is a stablecoin backed by fiat currency (USD) and supported by a monthly product revenue Buy Back Mechanism. Issued by Bodhisla Ltd, Heaven Token is the cornerstone of the Heaven Ecosystem, which includes the Soulmates app, Loop Pro AI Smart Ring, and Heaven Wallet.

This white paper outlines the regulatory compliance, operational framework, technological advancements, and value proposition of Heaven Token as a secure, transparent, utility-based digital asset for users and investors. By aligning with FCA regulations and adopting robust mechanisms for liquidity, security, and compliance, Heaven Token bridges blockchain innovation with practical real-world applications, such as the groundbreaking Dream Crowdfunding feature and buyback system.

By offering products and utilities centred on Connecting people via friendship, love & companionship, personal growth, financial empowerment, and wellness, Heaven Token delivers a unique ecosystem driven by transparency and innovation.

1. HEAVEN ECOSYSTEM OVERVIEW

The **Three** Pillars

The Heaven Ecosystem is a **multi-product** platform, seamlessly integrating **Heaven Token** across interconnected applications and tools for **wellness**, **financial**, and **relationship** management.

1.1 CORE PRODUCTS

Heaven Soulmates App

A matchmaking platform enriched with Dream Crowdfunding (launching Q1 2025) and Health-Based Matchmaking (launching Autumn 2025), which promotes meaningful connections that align with users' life goals and wellness priorities.

Loop Pro AI Smart Ring

A wearable device that tracks health metrics (such as physical activity, sleep patterns, and heart rate) and integrates them into the Soul Mates app for lifestyle insights and compatibility matching.

Heaven Wallet

A secure, all-in-one wallet for managing fiat and crypto assets, enabling on/off ramping, and featuring a debit card (launching Q1 2025) for real-world spending.

Through these core products, the Heaven Ecosystem merges crypto technology and real-world functionality, designed to empower users in every aspect of life.

2. PRODUCTS AND TECHNOLOGICAL DEVELOPMENTS

2.1 HEAVEN SOULMATES

Soulmates app is a **flagship product revolutionising the dating space by integrating personal growth tools and financial empowerment through blockchain technology.**

CORE FEATURES

1. **Match with Vibe, Mindset, & Wellness**

Enhances matchmaking by incorporating psychological compatibility alongside wellness factors, creating deeper connections.

2. **Chat Functions:** Build relationships through real-time conversations in-app.

3. **Dream Crowdfunding** (Launching Q1 2025)

A **first-of-its-kind crowdfunding feature** directly linked to user goals, enabling users to receive financial support based on their aspirations.

Create Personal Campaigns

Campaigns can include objectives such as starting a business, funding maternity expenses, pursuing creative projects, or personal development goals.

Financial support comes from matches or the broader community with donation buttons on profiles throughout the app urging stronger relationships and meaningful connections.

Revenue Streams from crowdfunding

Campaign creation fees.

5% withdrawal fees from successfully funded projects.

4. **Wellness-Based Matchmaking Enhancement**

(Launching Autumn 2025)

An upgrade to the current matchmaking system, which combines **vibe- and mindset-based algorithms** with health and lifestyle data integration to create deeper compatibility.

Syncs health metrics from the **Loop Pro AI Smart Ring** to match users based on **wellness priorities** such as:

- Activity levels.
- Sleep patterns.
- Heart rate trends.
- Stress levels

Ensures compatibility by aligning shared habits and healthy lifestyles.

5. Groups & Community Engagement (Launching Q2 2025)

Users can join groups based on shared interests, wellness goals, or campaign themes, enhancing community interaction.

- **Badges and Achievements:** Reward users with **badges** for milestones in wellness, crowdfunding, or active engagement, creating a gamified experience.

This system combines intellectual, emotional, and physical compatibility to provide a **holistic matchmaking experience**, while creating engagement opportunities through communications, community interaction, and recognition.

In-App Revenue Streams

Subscriptions, advertising, crowdfunding fees, and promotional options for profile and dreams within the app contribute directly to Heaven Token's buyback mechanism.

FUTURE FOCUS

“A communications platform, akin to a wellness-focused WhatsApp, facilitating ongoing connections through real-time chats, community wellness challenges, and goal-sharing with crowdfunding support tools”

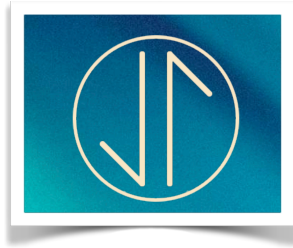

2.2 HEAVEN WALLET

H **Heaven Wallet** facilitates secure management of both fiat and digital assets, bridging cryptocurrency possibilities with real-world usability. Designed to offer seamless integration between traditional and digital finance, the Heaven Wallet is a cornerstone of the Heaven Ecosystem.

CORE FEATURES

FIAT &

CRYPTO BASED VAULTS

Supports IBBA Fiat

Operations and Binance crypto integrations, creating a seamless flow between traditional and digital financial systems.

IBBA Fiat Operations

Fiat transactions are facilitated through partnerships with IBBA Bank, ensuring secure, compliant, and efficient processing.

On/Off Ramping

Users can convert cryptocurrencies to fiat and vice versa with ease, using Covr-secured transactions for maximum military grade security.

Binance Integration

Heaven Wallet leverages Binance's developer program for its crypto infrastructure to enable seamless cryptocurrency trading, transfers, and liquidity management with Heaven Wallet smooth front end user interface.

Debit Card (Launching Q2 2025)

Allows users to spend fiat or cryptocurrency balances in real-time at any location that accepts traditional cards.

Features instant crypto-to-fiat conversion, enabling global spending without the need for manual exchanges.

Real-Time Tracking and Transparency

Users can track their balances, transaction history, and Heaven Token asset growth performance in real time, ensuring full transparency.

Revenue Contribution

30% On/off ramping fees and transaction charges within the Heaven Wallet contribute directly to the Heaven Token buyback mechanism, ensuring liquidity and stability for the token.

FUTURE FOCUS

Heaven Wallet will expand into offering

NASDAQ and Crypto Trading:
Enabling users to invest in traditional stock markets using cryptocurrency or fiat within the Heaven Ecosystem.

Loans and Credit Services
Providing decentralised and traditional loans, with options for using Heaven Token or other selected assets as collateral, fostering accessibility to financial empowerment.

2.3 LOOP PRO AI SMART RING

Loop Pro AI Smart Ring, launching on 1 March 2025, integrates health monitoring and wellness tracking into the Heaven Ecosystem. This wearable device serves as a powerful tool for personal wellness and compatibility insights, while also having future applications in security and financial transactions.

CORE FEATURES

– Health Monitoring & Matchmaking

Captures metrics like activity levels, sleep quality, and heart rate, bringing health metrics to matchmaking through the Soul Mates app.

Syncs these metrics to enable compatibility features based on shared wellness and lifestyle goals within the app.

– Future Security Integration with Wallet

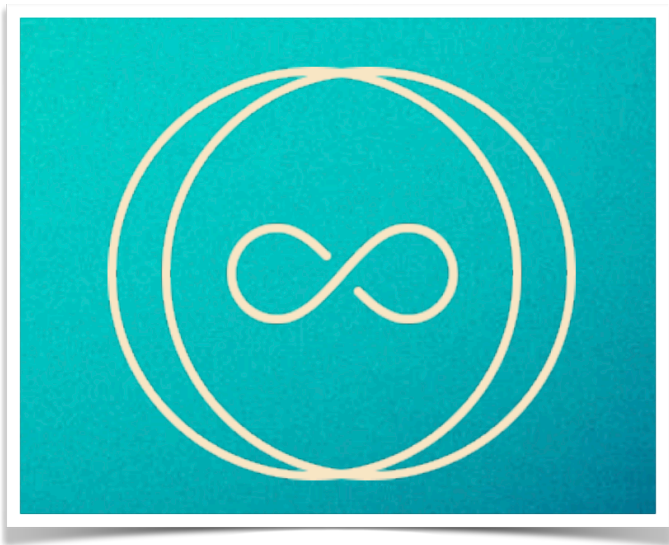

In the future, the Loop Pro Smart Ring will act as a 3rd-party security device for transactions within the Heaven Wallet similar to a chip & pin card.

This integration will offer an extra layer of security, requiring ring-based biometric or proximity-based authentication for high-value or sensitive transactions.

This aligns with the Heaven Ecosystem's commitment to ensure safe and seamless financial interactions for its users.

– Revenue Contribution Across Products

- Soulmates (subscriptions, advertisements, and crowdfunding fees);
- Loop Pro AI Smart Ring sales; and
- Heaven Wallet transactions contribute directly to the Heaven Token buyback mechanism, ensuring liquidity and market stability.

SECURITY ON THE HEAVEN ECOSYSTEM

Security is a cornerstone of the Heaven Ecosystem, ensuring that users' data, transactions, and activities are safeguarded at all times. Comprehensive measures have been implemented across all products to provide a secure and trustworthy environment.

Core Security Features:

1. **Biometric Verification & ID Verification via Veriff**

- Upon account creation and subscription, all users will be required to complete a **full identity verification (IDV)** process using **Veriff**, a world leader in AI-powered identity verification.
- Veriff provides **biometric scanning and document validation**, ensuring that only verified users can access Heaven Wallet and other products, which prevents fraud and unauthorized account access.

2. Data Protection:

- All user data is encrypted using **AES-256 encryption**, ensuring sensitive information remains secure against unauthorized access.
- The Heaven Ecosystem complies fully with **GDPR** and other global data protection regulations to guarantee user privacy and safety.

3. Two-Factor Authentication (2FA):

- Available across all products, including the **Heaven Wallet, Soul Mates app,** and **Dream Crowdfunding**, adding an extra layer of protection for user accounts.

4. Third-Party Security Device Integration (Future Integration):

- The **Loop Pro AI Smart Ring** will provide **proximity-based authentication** and **biometric validation** for transactions and sensitive activities in the Heaven Wallet.

3. TOKENOMICS

TOKEN UTILITY

Heaven Token's structure ensures trust, long-term sustainability, and active ecosystem support. The total supply of 1 trillion tokens is distributed to fund ecosystem growth, incentivise engagement, and ensure liquidity.

TOKEN ALLOCATION BREAKDOWN

60% 5 year lockup period, BOD meeting for the next 5 year projection plan, new product release and any adjustments to provide improved growth for our investors.

30% allocation to circulating supply

10% Secure stability security lock up

1. **Staking Rewards**

- Users earn **12% APR as daily passive rewards** by staking their Heaven Tokens.

2. **Dream Crowdfunding and Donations**

- Heaven Tokens can be used to create or support Dream Crowdfunding campaigns.
- Supporters earn rewards for donations, which can be utilised in the upcoming **Education Centre** or upcoming platform features.

3. **Ecosystem Transactions**

- Heaven Tokens are used to cover **network fees** for transactions within the **Heaven Wallet** and other services in the ecosystem.

4. **Integration with Products**

- Utilised in the **Soul Mates app**, Heaven Wallet, **Loop Pro AI Smart Ring**, and other services to enhance functionality and user engagement throughout the ecosystem.

5. **Buyback Mechanism**

- A **monthly 30% revenue buyback system** ensures liquidity, stability, and token value growth, driven by revenues from subscriptions, advertising, transaction fees, and product sales.

3.1 BUYBACK MECHANISM

Heaven Token's monthly **30% revenue buyback system** ensures liquidity and market confidence.

Sources of Revenue for Buybacks:

1. Soul Mates Subscriptions, Ads, and Crowdfunding Fees.
2. Promotion Packages for Dreams.
3. Heaven Wallet On/Off Ramping Fees.
4. Loop Pro Sales.

Buyback Schedule:

- Buybacks occur monthly between the **25th and 5th**.
- Verified by accountancy, the market maker, and Board of Directors (BOD).

3.2 ADDITIONAL TOKENOMICS DETAILS

- **Total Supply:** 1 trillion tokens
 - [BSCScan Contract Link](#)
- **Burning Mechanism:** None (future consideration possible by BOD).
- **Vesting Periods:** **Up to one year** for large token pre-purchases, with early release possible upon approval by the market-making management.

4. REGULATORY FRAMEWORK

Heaven Token adheres to the highest standards of compliance and governance:

- **FCA Alignment:** Compliance with cryptoasset guidelines in the **Financial Services and Markets Act (FSMA)**.
- **AML/KYC Protocols:** Powered by **Veriff biometric technology**, ensuring verified users for secure transactions.

5. Governance and Custody

- **Custodial Safeguarding:** Backing assets are held by independent custodians (e.g., **Binance, IBBA Bank**) to reduce insolvency risk.
- **Daily Reconciliations:** Ensures token supplies are appropriately backed at all times.

6. Consumer Protection and Risk Management

Heaven Token prioritises consumer safety:

- **Risk Disclosures:** Clear warnings regarding cryptoasset risks (e.g., market volatility).

- Secure Transactions: Protected by military-grade encryption via Covr Technology.

7. Conclusion

The **Heaven Ecosystem** integrates **crypto utility, personal empowerment, and financial growth** through innovative solutions like **Dream Crowdfunding** and **Health-Based Matchmaking**. With Heaven Token at its foundation, supported by its buyback mechanism, compliance standards, and diverse utilities, **Bodhisla Ltd** aims to transform how users approach relationships, wellness, and financial engagement.
